Product Features

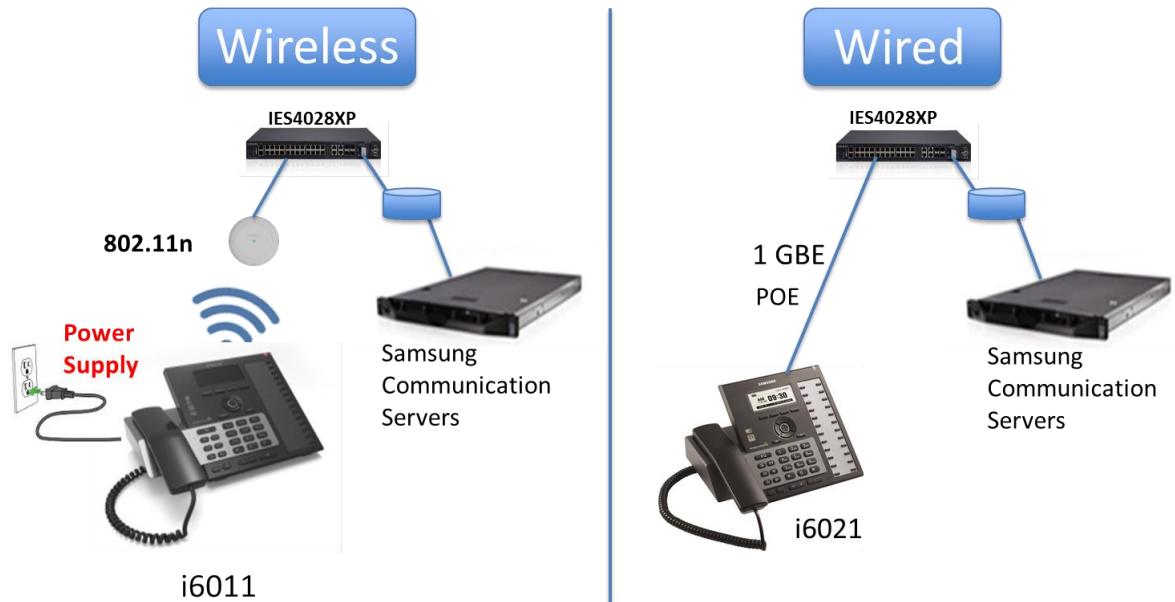

The following Product Features are supported with the new SMT-i6011 & SMT-i6021 IP Phones

1. Easy Install via USB

You can install a csv file with special userID to setup the phone prior to authentication to the OfficeServ or SCM system.

2. Wi-Fi 802.11n connection

The Phones are available in both wireless and wired enterprise environment. No need for Ethernet connection. Just run power and setup SSID to your Wi-Fi network.

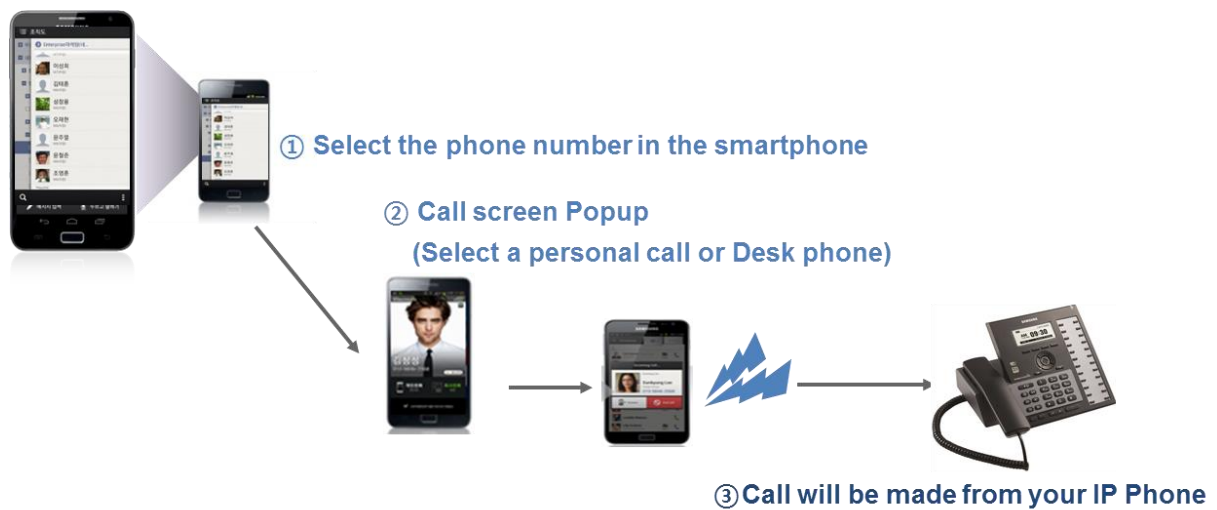

3. Bluetooth 2.0

Bluetooth connection allows you to configure a Smartphone, Headset and even use a Samsung Level as a speaker phone to your IP Desktop.

4. Smartphone Direct Dial

No need to enter a phone number manually in IP Phone. Using contacts on your smartphone, select the contact, from the pop up screen enter Desk phone to make a call from your IP Phone

5. Smart Calling Line ID (CLID) Notification available on SCME Desk Phone Manager (SDM)

Display the Calling Line ID (CLID) that has been received by the desk phone with the Smartphone providing Smart CLID. Answer or reject a call on the Smartphone's Samsung Desk phone Manager (SDM) App

6. One Touch Call Move

Samsung continues to provide the move feature on the i5343 over to our new IP phones.

SOFTWARE AVAILABILITY

The software for the SMT-i6011 & i6021 phone and SDM may be downloaded from the Samsung we-operations website. The phones will be shipped with OfficeServ version of software. To upgrade to SCM you can upgrade by USB or set static IP address in Server mode to SCM and download SCM software to the phones. Please contact support service for software.

System/Card/Phone	Package name		Description
SMT-i6011	SCM 5.2 and up	i6011_SCME_V01.17_20150909.tar	Phone Software
	OfficeServ 4.9 and up	i6011_SPP_V01.17_20150909.tar	Phone Software
SMT-i6021	SCM 5.2 and up	i6021_SCME_V01.17_20150909.tar	Phone Software
	OfficeServ 4.9 and up	i6021_SPP_V01.17_20150909.tar	Phone Software
SDM	SDM-SCME-V01.21.apk		Application Software

Note 1: Even though the SDM file is titled "SDM-SCME", it can connect to either an OfficeServ or SCME system. It is the same android application for both systems.
